

City of Canal Fulton

SUMMER 2007
www.cityofcanalfulton-oh.gov

PUBLISHED BY THE CITY OF CANAL FULTON AS A SERVICE TO EDUCATE AND INFORM THE CITIZENS

Mayor's Corner

There are many interesting and exciting developments happening around Canal Fulton. Discovery Park and the new tennis courts at Muhlhauser Park have been completed and offer our residents new recreational opportunities. The Parks & Recreational Board and Canalway Center are offering expanded programs this summer that include summer movies and concerts at Muhlhauser Park. The new fire station is on schedule and is expected to be completed by late fall. This new station will enable our fire and EMS staff to serve the present and future needs of our residents with better response times. Talks with Lawrence Township are progressing toward a joint comprehensive plan and improving joint fire services. In addition, despite the current economic conditions across the region, Canal Fulton's economy appears to be growing. A Planned Unit Development adjacent to Lake Lucern is projected to have 48 single-family homes and is now under construction. There are other housing developments in and adjacent to the City that are under different stages of development. On the commercial side, we have been successful in working with an existing business to bring in additional jobs. We have also been negotiating with other local firms on expanding their operations and bringing new job opportunities to town in order to fill gaps created by the recent departure of two companies.

Looking back over the past three and a half years, it brings me great pleasure to see the achievements we've accomplished in such a short period of time. But our work is far from complete and there is much more to be done.

As a result, I would like to announce my intent to seek re-election as Mayor and ask for your support on November 6, 2007. I am committed to running a local government that is responsive to the needs of our community, run by capable civil servants who provide the best possible services at the least cost to the taxpayer, and ultimately controlled by our residents through the majority of votes at the ballot box. Combined with a dedicated City Council that is willing to tackle tough issues, we can make a difference and continue to make the City of Canal Fulton a great place to live, work and raise a family.

Thank you and have a great summer.

CONGRATULATIONS

The Canal Fulton Waste Water Treatment Plant has received the Ohio NESOWEA Outstanding Facility Award in recognition of exemplary record of compliance in the past year in the Northeast Section of the Ohio Water Association. The department has demonstrated through continual excellence in plant performance their dedication to protection of our water resources.

A special thanks to Council for their support of the Utilities Department; Dan Mayberry, George Lukinac and staff for their efforts; CTI Environmental for the work they have done in the matter of design and construction observation of the sludge press unit installed some years ago, which was one of many key elements to this success.

It is a very difficult task they undertake on a day to day basis and have achieved perfect compliance with the rules and regulations administered by the Ohio Environmental Protection Agency.

CITY MANAGER - MARK COZY

The City of Canal Fulton and Lawrence Township are one step closer to collaborating on a Joint Comprehensive Plan for our community. The Stark County Regional Planning Commission has submitted a proposal laying out a Scope of Services that they can perform for us. They can provide us with demographic data on the existing population, including age, employment and housing; as well as data on zoning, land use, natural resources, historic resources, agricultural trends, transportation, and infrastructure. The Regional Planning Commission would then identify changes within the City/Township Community that have occurred. This information would then be analyzed to identify key factors that could affect future growth. Incorporated into this would be an overview of our community's role within the context of the Stark County region. This is where you come in.

Mayor John Grogan and members of Council are now inviting concerned citizens to serve on a Joint Comprehensive Plan Steering Committee. The Canal Fulton Mayor and Council and the Lawrence Township Trustees will each appoint six citizens from our community to form a twelve member Committee. The goal is to try to get equal representation from all parts of the city and the township, including our businesses. The deadline to submit letters of interest either by mail or email is August 17.

Joint Comprehensive Plan Committee members will be expected to meet once a month for a period of about one year. All meetings will be open to the general public. This Committee will identify the community's priorities and long-term vision. Plans from other communities will be reviewed. Governmental services will be analyzed and best management practices recommended. Options for community and economic development, types of residential development, transportation and infrastructure planning, zoning, and land use planning will be among the issues discussed and incorporated into the plan.

Canal Fulton has not embarked on anything of this magnitude since the Charter Commission was established when the Village of Canal Fulton became the City of Canal Fulton.

The Canal Fulton Canalway Center was successful in receiving a grant from the Ohio & Erie Canalway Association for audio visual equipment and interpretive panels. Thanks to the Canal Fulton Park Board for stepping in with monetary support for the local match when there were delays with the grants being awarded. Without the Park Board's help we would have lost an entire season before the audio visual equipment would have been installed.

Thanks also to the Canal Fulton Heritage Society and City employees for all the improvements around the Canal Boat Wharf and another successful season running the St Helena III Canal Boat. The Heritage Society relies on volunteers to do many of these wonderful things for our community. Volunteers are still needed to conduct tours of the Historic Oberlin and Blank Houses. Anyone interested in volunteering can call the Canal Fulton Heritage Society at (330) 854-3808 or the Canalway Center at (330) 854-6835.

IF YOU'RE NOT AT YOUR LAST JOB, YOUR 401 (k) SHOULDN'T BE EITHER.

Leaving a 401(k) with a previous employer could mean leaving it alone with no one to watch over it.

At Edward Jones, we can explain options for your 401(k) and help you select the one that's best for you. If you'd like to roll it over into an Edward Jones IRA, we can help you do it without paying taxes or penalties. So you can feel confident someone is looking out for you and your 401(k).

To find out why it makes sense to talk with Edward Jones about your 401(k) options, call or visit your local investment representative today.

Your **completed** survey can be dropped off
at:

Canal Fulton City Hall, 155 East Market Street
(across from the Canal Fulton Public Library)
from 8:30AM to 4:30PM Monday through Fri-
day; returned at any time with your water /
sewer payment in the drop box at City Hall
(located on the front door),
or to the drop box in the Police Department
lobby
on Locust Street from 8AM to 8PM.

Please return by August 10

WE WANT TO HEAR FROM YOU!

Victor Colaianni, Finance Chairman

One consistent item I have heard during my tenure on City Council is that elected officials do not listen to what voters say. While I admit that there are times when this thought-process is justified there are also times that it is not.

This past May, voters in Canal Fulton were given the opportunity to vote on a 0.4 percent increase in the City's income tax rate. By a very narrow margin of 78 votes, this increase was defeated. Following the May 8 election I had the opportunity to speak with many voters and found out that some felt they didn't know how additional revenues would be spent, and others were told that certain departments would not be given enough money if the issue passed.

NONE of the voters I spoke with ever said that we, as a City, didn't need to consider raising taxes to garner additional revenue given the increased costs of doing business!

Over the past few years, the City Administration has done better at listening to voters, and even our neighbors in Lawrence Township. We have reached out to get your feedback, and invited you to attend meetings to share your thoughts. Some of you have taken time out of your busy schedules to do these things. Unfortunately, some have not.

In September 2006 a town-hall meeting was held regarding the City's budgeting process, and to explain how your tax dollars are spent. Only three residents attended. On the other hand, City Hall and even Lawrence Township's hall was filled to capacity when

discussions were held regarding the possibility of casino gaming coming to our community. I mention those items specifically to illustrate the fact that there **ARE** people out there who show an interest in their community when they choose to do so.

Now, once again, we are coming to you, the community to get your thoughts and feedback. Enclosed with this newsletter is a survey about the services and amenities offered in Canal Fulton. We realize that with your busy schedules, you may not be able to attend a Council meeting, or to stop by City Hall during business hours to talk with our staff. What we do know is that many of you drop off your water bill payment at City Hall in the drop box, and most of you do drive by our Police Department at some point during your week. Those two locations will be the drop off points for this survey.

We ask that you complete and return the survey **by Friday, August 10** if at all possible. Once we review and compile the survey data, we will share it with you in our fall newsletter. We also are committed to taking your feedback and moving forward with operating our City, and specifically its finances, as you advise. Furthermore, we will continue to reach out to you as much as we can to hear your voice. After all, this is your community, and as elected officials we should strive to serve you as best as possible by listening, and taking action!

DROP OFF AREA FOR YARD DEBRIS

The City accepts yard debris at the Street Garage, 950 Water Street.

This is for residents only. No commercial, please. Do not place any plastic bags, treated lumber and any other non-biodegradable materials in the bin.

Recycling

**Heritage Square Plaza (rear)
963 E. Cherry Street**

Residents can take glass, newspaper, cardboard, aluminum, steel cans and #1 and #2 plastics to this drop off location.

Used tires may be dropped off for free at:

**Jackson Township Recycling Station
5717 Wales Avenue N.w.**

Monday—Friday 9:00 a.m.—5:00 p.m.
(Limit 4 tires per visit)

PUBLIC SERVICES - DAN MAYBERRY

Permits Required

Road Opening Permits—A permit is required for any excavation in the City right-of-way. A permit can be obtained by coming to City Hall, 155 E. Market Street.

Mosquito Spraying

The City has started its summer mosquito spraying program and is asking property owners to take steps to eliminate possible mosquito breeding locations.

David Lukinac, the City’s licensed operator, said mosquitoes commonly reproduce in wet, grassy areas, but they also find hospitable breeding sites in and around buildings where there is standing, stagnate water. Property owners should inspect the following areas:

- Gutters and window wells—remove leaves or debris and drain
- Out-of-use swimming pools—drain and cover
- Garage floor drains—check for standing water
- Discarded tires and cans—drain water and properly dispose
- Bird baths—should be cleaned and refilled on a regular basis

The City will spray for mosquito control as needed, Monday through Wednesday between 8:00 PM-12:00 Mid-night. Spraying usually takes place on dry evenings when the wind is less than 10 m.p.h.

Mr. Lukinac advises that even though the insecticide is not harmful to humans, individuals should avoid prolonged exposure to the mosquito spray. Residents can be “tipped off” during those times of spraying in their areas by the distinct sound of the truck-mounted fogging machine and telltale odor. If you are outdoors, you may want to go inside and close doors and windows until the spray has dispersed. Motorists should maintain a distance of at least 150 feet behind the sprayer.

Individuals with respiratory problems or beekeepers may contact the City at 330-854-2225 to allow Mr. Lukinac the ability to pinpoint locations where the sprayer should be turned off.

For further information you may contact David Lukinac at 330-854-2225.

CANAL FULTON HERITAGE SOCIETY

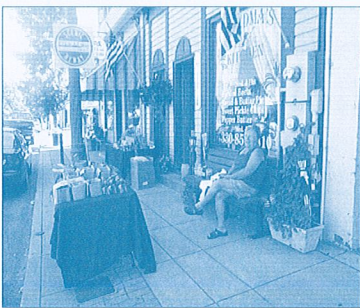

The Canal Fulton Heritage Society held a fund raiser in conjunction with the Community wide garage sale, on June 9-10. Besides trying to raise much needed funding, a goal of bringing more shoppers to the local businesses was reached.

There were raffles donated by local merchants who set "sale" items outside, for excitement, as well. A grand prize drawing of \$100 was donated by Hatfield Real Estate, to encourage customers to shop, dine & canoe with free entries for every \$10.00 spent. DJ Mike Schnell, Knight Tyme Music, provided music and entertainment while promoting each participating business. Many flea market vendors set up their wares and the cost of their spaces was donated to the Heritage Society. Many shop owners were pleased to see the turn out of shoppers and much fun was had by all.

The Canal Fulton Heritage Society would like to thank, DJ Mike for donating his time and sound system for the two days, as well as the following local establishments:

Arch Angel, Buck Chevrolet, Canal Boat Lounge, Canal Fulton Canoe Livery, Century House, Cherry Street Creamery, Coach House, Cottage Gate, Dax's Antiques, Gockeys, Grandma's Kitchen, Hatfield Real Estate, Karen's Sewing Specialties, Keillor's Teddy Bears, Oser's, Something to Crow About, Starfire, Stile's Art Studio, Time Worn Primitives, Toys Time Forgot, and Worden's Cycles.

CANAL FULTON PUBLIC LIBRARY

The Canal Fulton Public Library started the summer off in a big way with our library's 70th Birthday Party and the Memorial Garden dedication ceremony on Sunday, June 24. The day was filled with library tours, the showcasing of our new Children's Computer Lab courtesy of the Timken Foundation, the introduction of our new Friends of the Library group, along with music, quilt programs, fun crafts for children and birthday cake!

I would like to thank our new Friends of the Library group, our great staff, our Board of Trustees, and our wonderful patrons for helping to make it a great celebration!

Our Summer Reading Club for children, teens, and adults is in full swing at the moment. It's not too late to join in the fun, so please visit the library for more information on our summer programs for all ages.

The rest of the summer holds many wonderful surprises! In July, we will be offering our new keychain library cards to our customers after many requests. Stop in at our Circulation Desk to exchange your old library card for a new keychain combo-card at no cost (until September 30, 2007)! We are also excited about the arrival of our new PC Reservation software for our public internet computers. PC Reservation is designed to ensure fair and equitable access to our computers and provides many automated features that allow everyone to sign up for computer use with a library card and pin number. This sign up software provides added patron privacy and convenience. It will also help you by automatically locating the next available computer. Starting July 1, we are asking all public computer users to begin the habit of bringing their library card for public computer sign up. A tentative installation date has been set for July 2, so please look for our new software soon! We appreciate your patience as we implement this new service as there may be some "down times" during the installation process that day.

Also in July, the library will be participating in the upcoming Olde Canal Days celebration, both in the parade and at our annual booth at the festival. Please stop by our booth for yummy baked goods, to visit with staff members and to enter in our free gift basket drawings.

Finally, look for our brand-new library website by the end of the summer! Our Tech Administrator is hard at work building a sleek, user-friendly website for our customers to use from home. Have a great summer!

ZONING DEPARTMENT

• JOHNSON BELFORD

With the arrival of summer, people's thoughts turn to yard cleanup and remodeling projects. Canal Fulton has a Zoning Code which sets certain standards for property maintenance. I will try to answer the most frequently asked question.

Do I need to obtain a Zoning Permit to put in a swimming pool, install a fence or put in a yard barn or a deck? The answer to all of the above is YES.

The fee schedule for the above items:

Swimming Pool	\$50.00
Fence	\$25.00
Yard Barn up to 150 sq. ft.	\$25.00
Deck	\$25.00

The Zoning Code also covers the mowing of yards and cutting of weeds and states "The owner or occupant or person having charge of any lot or parcel of land within the corporation is responsible for the mowing of the lot or parcel of land when the grass or weeds reach a height of 8 inches".

The Zoning Department has extended its hours of operation. The Zoning office is now open from 8:00 AM until 4:30 PM on Monday thru Thursday and is closed on Friday. The Zoning Department telephone

POLICE DEPARTMENT - DAVID FRISONE, CHIEF

CANAL FULTON POLICE DEPARTMENT TELEPHONE COMMUNICATIONS

The Canal Fulton Police Department will be updating their telephone system with voice mail in the near future. The purpose of this addition is to improve voice communications between the public and our department, as well as to enhance efficiency and increase service. Police Department phone numbers will not change during this transition, however, residents and businesses will have an option of calling one of three numbers based on the type of service needed.

9-1-1 Emergency Police / Fire Assistance

Emergency calls that require immediate assistance such as crimes in progress, vehicle accidents with injuries, or any other potentially life-threatening situation.

330-854-2211 Non-Emergency Police Assistance

Non-emergency calls that require a police officer to respond such as minor vehicle accidents, report of a crime after it occurred, parking complaints, suspicious persons, vehicle lock-outs, loud parties and barking dogs.

330-854-2926 Police Administration

Routine administrative calls such as record requests, leaving messages for an officer, road/weather conditions, questions concerning an investigation, etc.

Both the emergency and non-emergency dispatch numbers will continue to be monitored at all times. Once the voice mail system is installed on the administrative phone line, callers will have the option to leave a message with a particular employee if personnel are not available to answer the call. This will reduce paper messages and prevent the need for callers to repeat the content of their conversation multiple times before reaching the appropriate individual. It will also eliminate administrative calls going to our dispatch center and enable them to focus primarily on calls for service as well as radio communications. Callers are reminded to use the emergency or non-emergency police dispatch numbers if they need a police officer to respond to a particular location for assistance.

2007 Northwest Youth Sign Ups!

The final registration dates for the N.W. Youth Football and Cheer Program this season is July 7 from 11:00 AM to 2:00 PM at the football concession stand. For more information, call 330-573-3357.

FIRE DEPARTMENT - RAY GREEN, CHIEF

SAFETY PRECAUTIONS FOR BACKYARD GRILLING

As residents prepare for barbecues and backyard grilling this summer, the Canal Fulton Fire Department and Lawrence Township Fire Departments urge residents in both communities to take safety precautions when using their grills.

Last year in Ohio, 103 fires resulted from the use of a gas or charcoal grill. Six people, including one firefighter, were injured as a result of those blazes. According to reports collected from Ohio's fire departments, 72% of the grill fires started on the patio or yard while another 15% started on a porch or deck.

Most gas barbecue grills are fueled by Liquefied Petroleum (LP) gas or propane. Unburned LP gas accidentally released or leaking from a gas grill can cause a dangerous fire or explosion. Problems that lead to fires or explosions commonly occur at two times: during the first use of a grill after a long period of storage and when a new cylinder of propane gas is attached to the grill.

It is important to follow the manufacturer's directions and take some basic safety precautions when grilling. We ask grill users to exercise the following precautionary measures when using grills:

Inspect grills closely prior to the first summertime use.

Keep your grill on a flat level surface 10 feet from any building. A grill should not be used inside or under a carport or breezeway. Never use a grill indoors.

Do not move a grill that is in use.

Keep children and pets away from the grill area: declare a three-foot "kid-free zone" around the grill. Periodically remove grease and fat buildup in trays below the grill so it cannot be ignited by a hot grill.

Charcoal Grills:

Use the proper starter fluid and store the can out of reach of children and away from heat sources.

Never add starter fluid when coals or kindling have already been ignited, and never use gasoline or other combustible or flammable liquids in place of starter fluid.

Gas Grills:

Check the metal tubes that lead directly to the burner. During storage, insects can block these tubes. They can be cleaned following the manufacturer's instructions, typically by using a pipe cleaner or wire to remove any blockage.

Check hoses for cracks or holes and replace any hose that appears to be damaged. Remove any sharp bends that you find in the hoses.

Follow your grill manufacturer's instructions for checking the connection to the cylinder every time a new cylinder is connected to the grill. (An easy way to do this is to tighten the connection and then apply a soapy water solution around the connection. If bubbles appear, the connection is leaking. Turn the cylinder off, reconnect the cylinder and check again.)

Do not attempt to repair the tank valve or the grill yourself.

Never attempt to connect a cylinder to a grill unless they have matching connections.

Always open the lid of a grill before igniting it with an electric igniter.

If you smell gas, turn the grill off immediately and do not use it until the problem can be corrected.
